BUNGALOW HOMES

Iva G. Lieurance
Designer

N PRESENTING this book, I am offering actual photographs and reduced blue print floor plans, critically selected from thousands of houses we have inspected in more than ten states. They are varied in style, attractive and universally popular.

The bungalows we design are compact and simple. No space is wasted, and there is no loss of material or money in needless and impracticable features. We have carefully studied the needs of the home owner, and by long experience in bungalow building, we are enabled to combine convenience and economy in the designs which make up this book.

Our bungalows are all well ventilated and lighted, and are equipped with full cemented basements, open air sleeping porches and many built-in conveniences without which a real home is incomplete. Styles for every purse and taste are represented in our selections for this book. In fact these bungalows meet every requirement of the practical home builder.

Costs of these houses are not given on account of the great variation in the cost of both materials and labor in the different localities, also on account of the inflation of the prices of many of the materials, which may not be permanent, however the approximate costs will be given on request.

Hoping and believing you will find this book of great value, I am

Yours sincerely,

L. F. GARLINGHOUSE, Topeka, Kansas

Our detailed plans show you exactly how to build them.

FLOOR PLAN NO. 105

EXTERIOR NO. 105

No. 105. A beautiful combination of stucco and brick, and a very conveniently arranged plan. The very large porch with its wide steps is very cozy and inviting.

Complete plans as shown or reversed and specifications \$7.50.

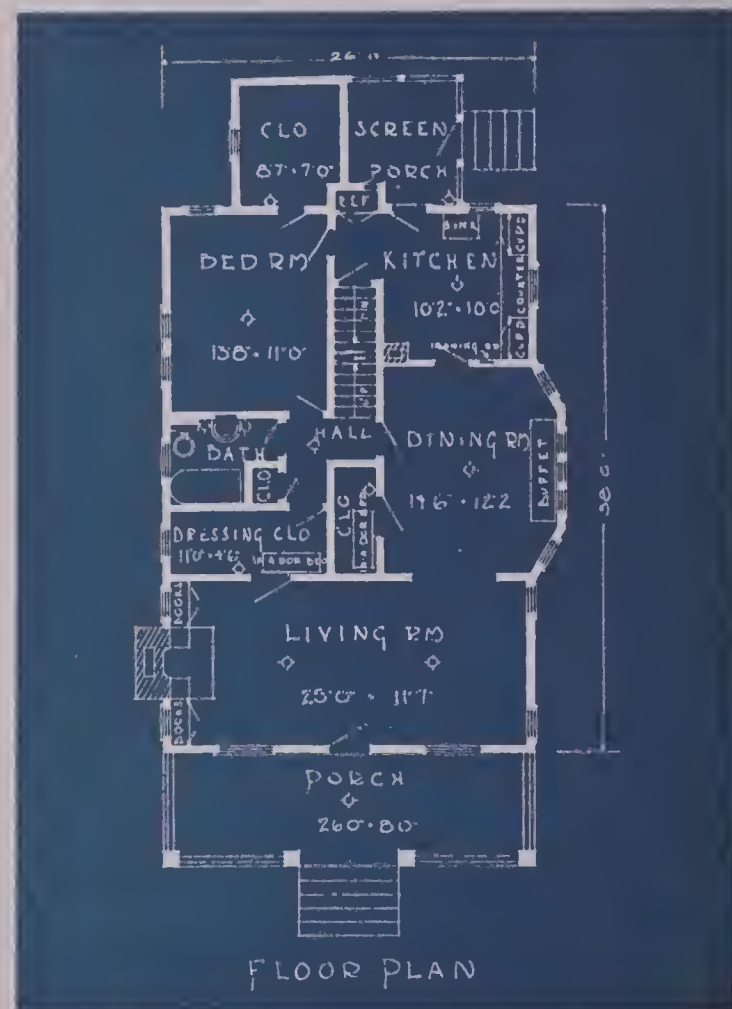

Opportunity will Knock. Get our detailed plans and have your door ready.

EXTERIOR NO. 106

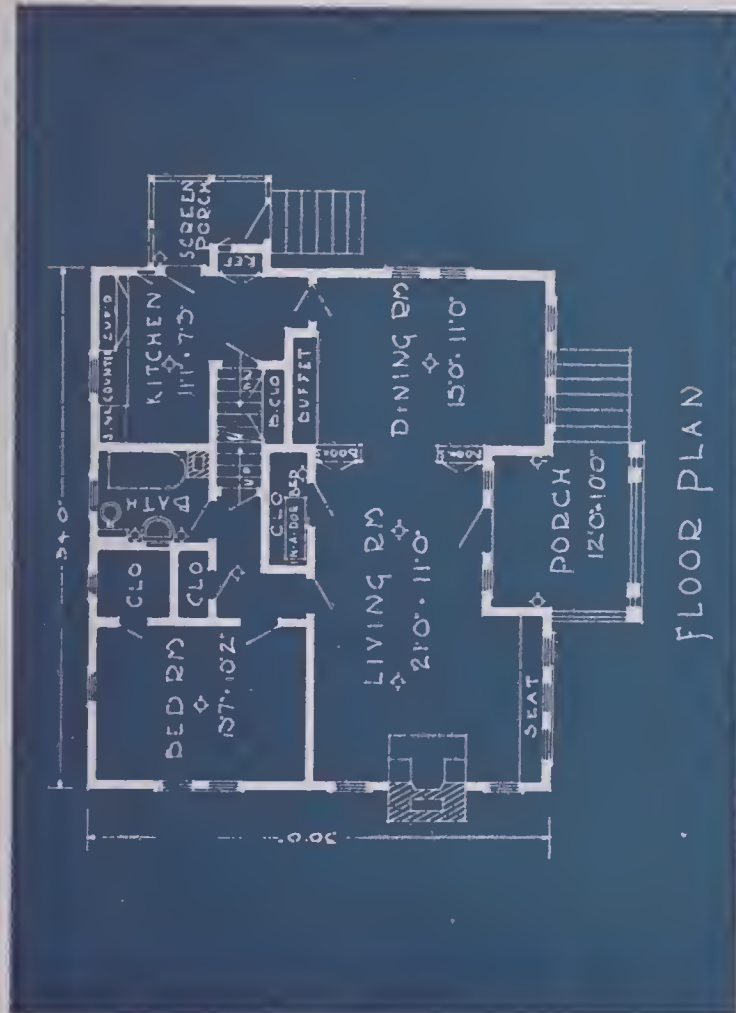

No. 106. One of our very best plans, having two in-a-dor beds and a fine sleeping porch over the screen porch and closet making the house equal to 7 rooms. The built-in refrigerator is a very convenient feature.

Complete plans as shown or reversed and specifications \$10.00.

FLOOR PLAN NO. 106

Our detailed plans show you
exactly how to build them.

FLOOR PLAN NO. 201.

EXTERIOR NO. 201

No. 201. A very unusual and pleasing bungalow very conveniently arranged, with splendidly ventilated spacious rooms. The very large sleeping porch upstairs and the in-a-dor bed are very novel and desirable features.

Complete plans as shown or reversed and specifications \$10.00.

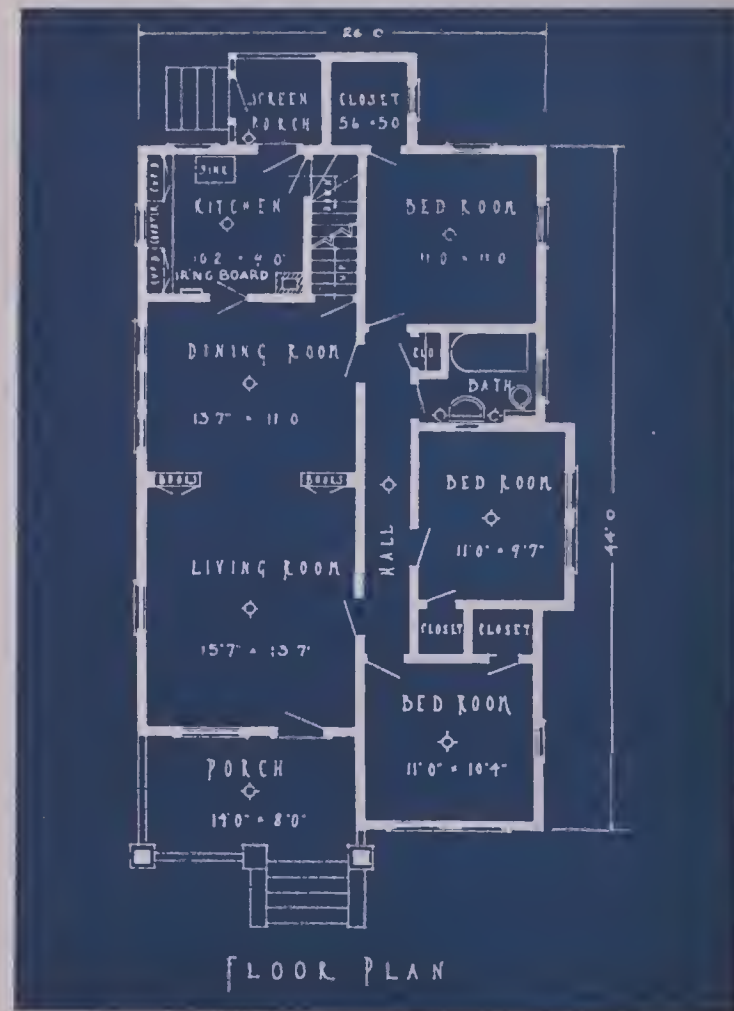

A wise builder takes stock of his needs and buys our detailed plans.

EXTERIOR NO. 203

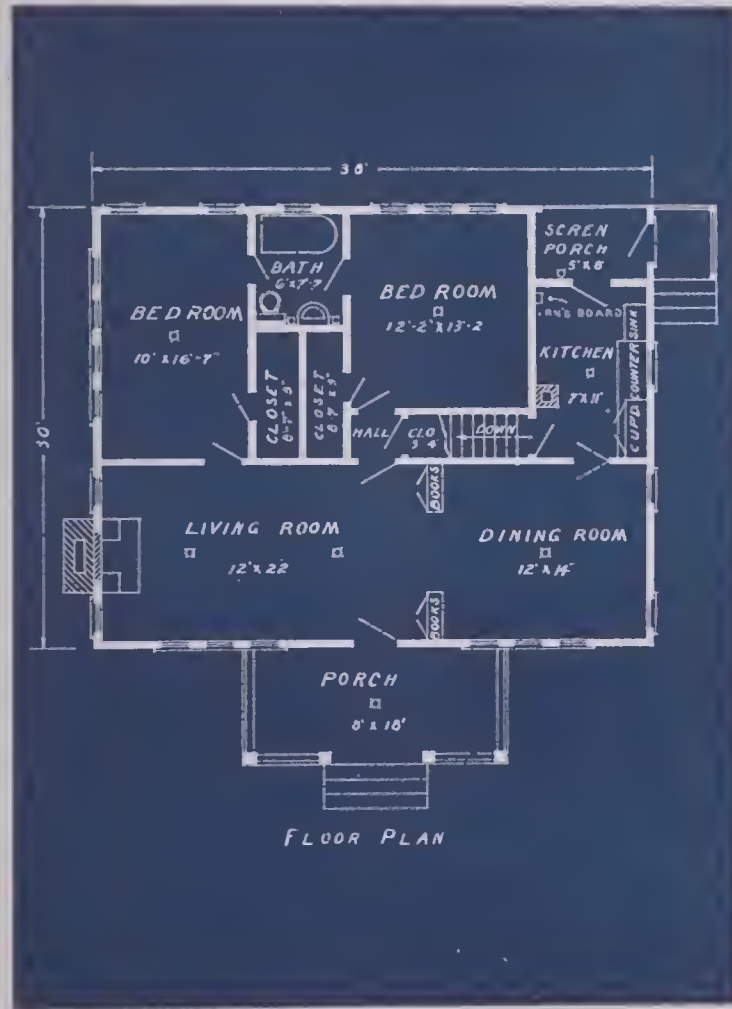

No. 203. A plain but exceptionally neat and attractive exterior and conveniently arranged plan make up this 6-room stucco and shingle bungalow.

Complete plans as shown or reversed and specifications \$7.50.

FLOOR PLAN NO. 203

Our detailed plans show you exactly how to build them.

FLOOR PLAN NO. 205

EXTERIOR NO. 205.

No. 205. A beautiful little bungalow home of five rooms worth consideration. The red composition roof and cobbler stone flue are very attractive and the plan arrangement is convenient and complete in every detail. The corner bedroom having many windows is quite equal to a sleeping porch. As in many of our other designs the greatest convenience is here realized for about the least money possible.

Complete plans as shown or reversed and specifications, \$7.50.

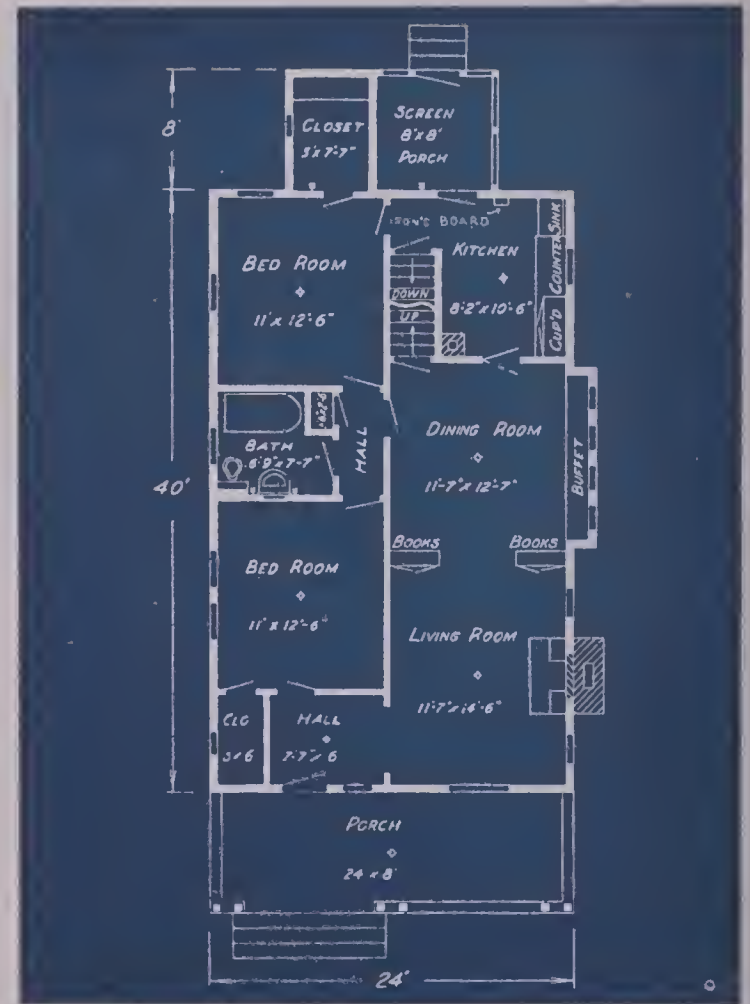

It is always too hot or too cold unless your house has been built according to our detailed plans.

EXTERIOR NO. 206

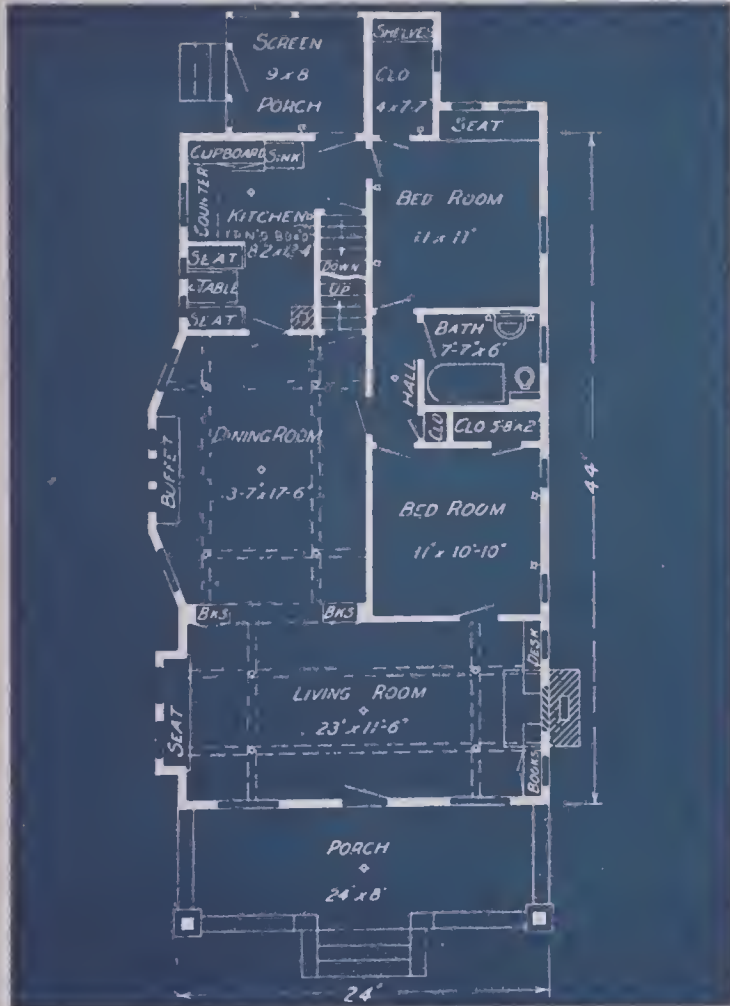

No. 206. Unlike most of our bungalows, in this design we have an entrance hall, which opens into the living room and front bed room. The book-case opening between the living room and dining room and the long buffet are very popular. There are plenty of large windows in this bungalow. This is a feature found in all of our houses.

Complete plans as shown or reversed and specifications, \$10.

FLOOR PLAN NO. 206

Our detailed plans show you exactly how to build them.

FLOOR PLAN NO. 209

EXTERIOR NO. 209

No. 209. This plan is a perfect example of the completeness of a bungalow home and has proven to be one of the most popular we have built. The style of architecture is practical and attractive and will permit of many different plan arrangements without affecting the outside design. The foundation is native stone and the front porch floor and steps are concrete.

Complete plans as shown or reversed and specifications, \$10.

Money spent for built-in features is well invested.

EXTERIOR NO. 210

No. 210. A typical bungalow arranged to utilize every foot of space. Besides the six living rooms there is a sewing room opening into the back bed room, and a sleeping porch, 9 feet, 6 inches by 19 feet, over the sewing room and back porch, which is plastered and heated, making it a useful room for both summer and winter.

Complete plans as shown or reversed and specifications, \$10.

FLOOR PLAN NO. 210

Our detailed plans show you exactly how to build them.

FLOOR PLAN NO. 211

EXTERIOR NO. 211

No. 211. A very substantial artistic, neat and well balanced bungalow. Over the sewing-room and back porch is a large enclosed sleeping porch. Cool in summer and warm in winter can be truthfully said of this bungalow. The interior arrangement has about every advantage and convenience that can possibly be put in a home of its size.

Complete plans as shown or reversed and specifications \$10.

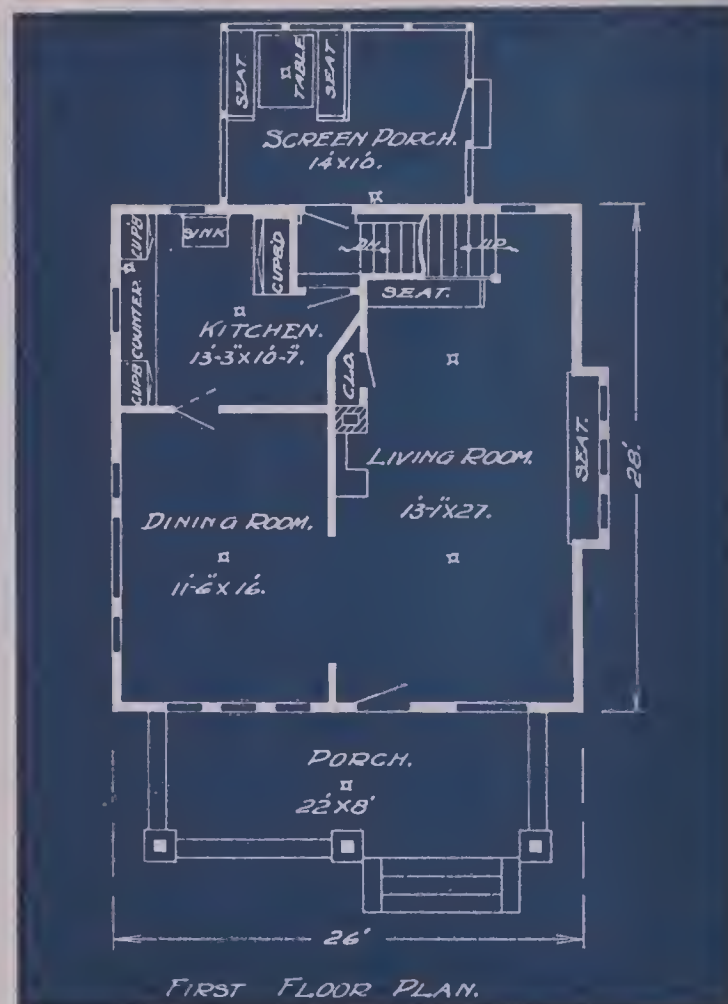

A wise builder plans his
work by our detailed plans.

EXTERIOR NO. 212

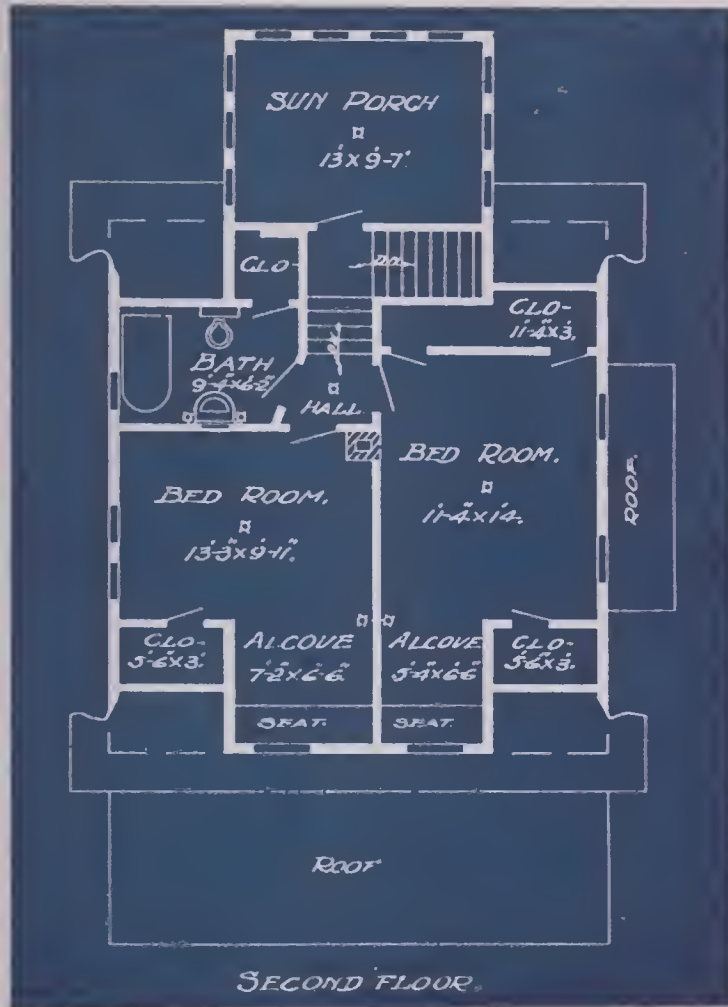

No. 212. Simplicity is the keynote of this exterior. The foundation is of cobble stone paving blocks. The front porch floor and steps are concrete. The basement extends under the entire house and provides for a hot water heating plant, laundry, etc. The floor of the basement is of concrete. The first story is sided with four inch siding, painted white, with shingles above stained brown. The second floor plan and end of the living room are shown on page 13.

Complete plans as shown or reversed and specifications \$10.

FLOOR PLAN NO. 212

Our detailed plans show you exactly how to build them.

FLOOR PLAN NO. 212

LIVING ROOM NO. 212

A pleasing effect is produced in this big living room, with the long window seat on one side, the fire place on the other and the attractive staircase. The interior finish in the living room and dining room is quartered oak. All the other rooms are finished in yellow pine.

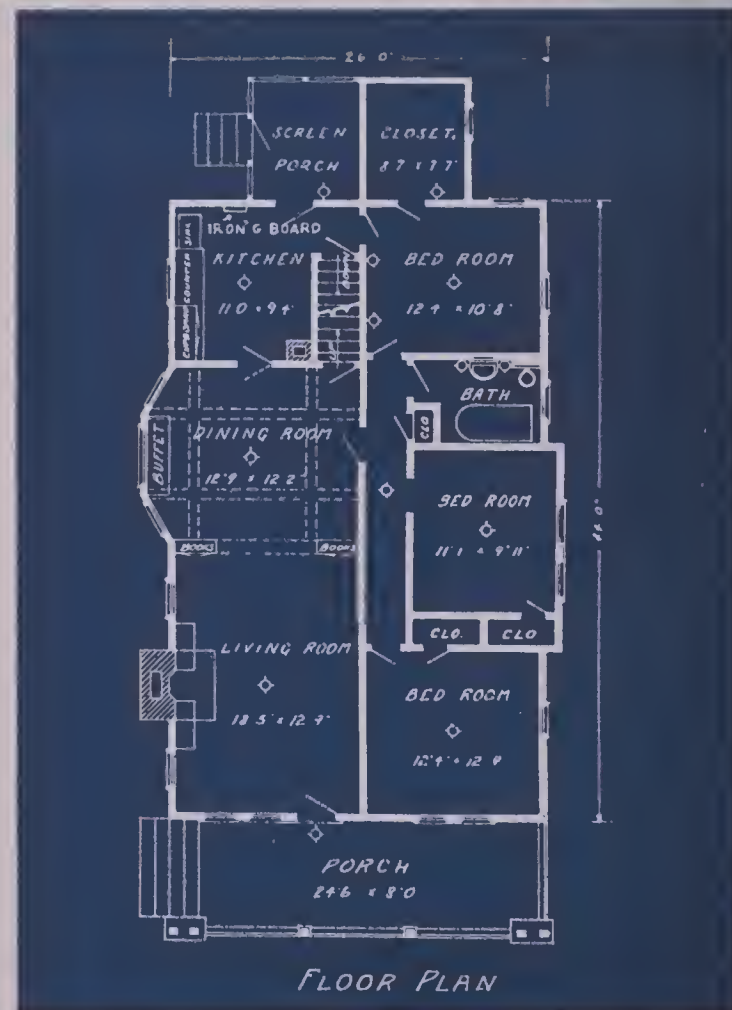

Good materials are essential;
our detailed plans are more so.

EXTERIOR NO. 213

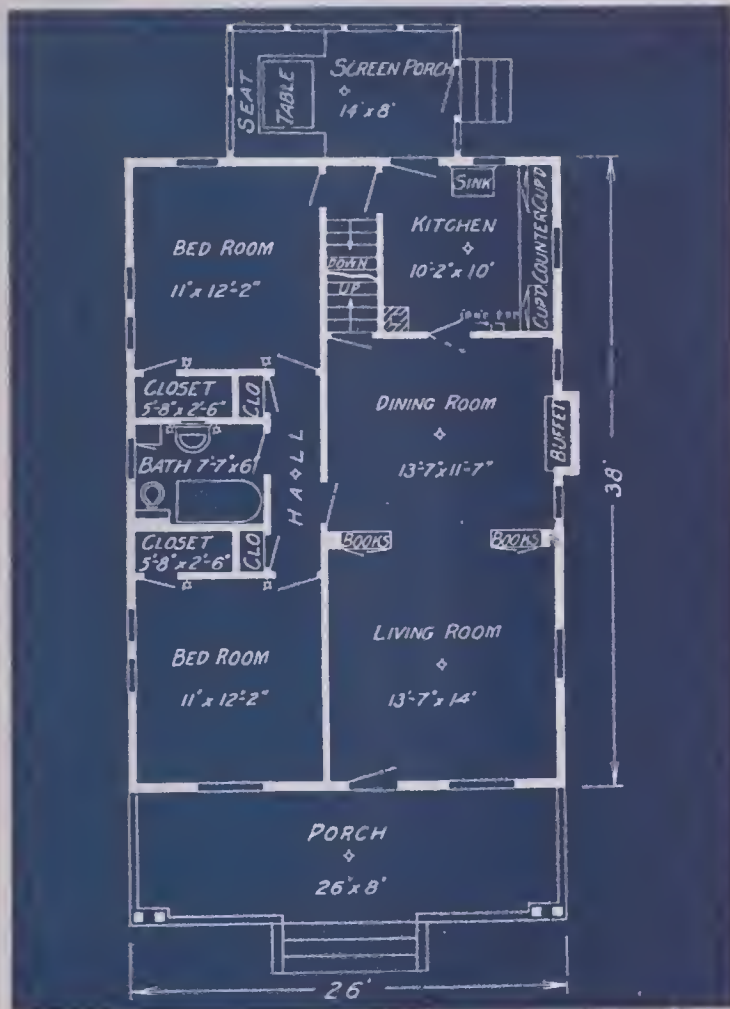

No. 213. As attractive and economically planned 6-room bungalow as can be found anywhere, there is also a large enclosed sleeping porch over the screen porch and closet.

Complete plans as shown or reversed and specifications \$10.

FLOOR PLAN NO. 213

Our detailed plans show you
exactly how to build them.

FLOOR PLAN NO. 222

EXTERIOR NO. 222

No. 222. This complete but inexpensive bungalow is simple and attractive. It offers all of the many conveniences of a modern home at the minimum of cost. The plan provides for a combination dining and kitchen porch, which may be used the year round by placing removable sash and screens in the openings.

Complete plans as shown or reversed and specifications, \$7.50.

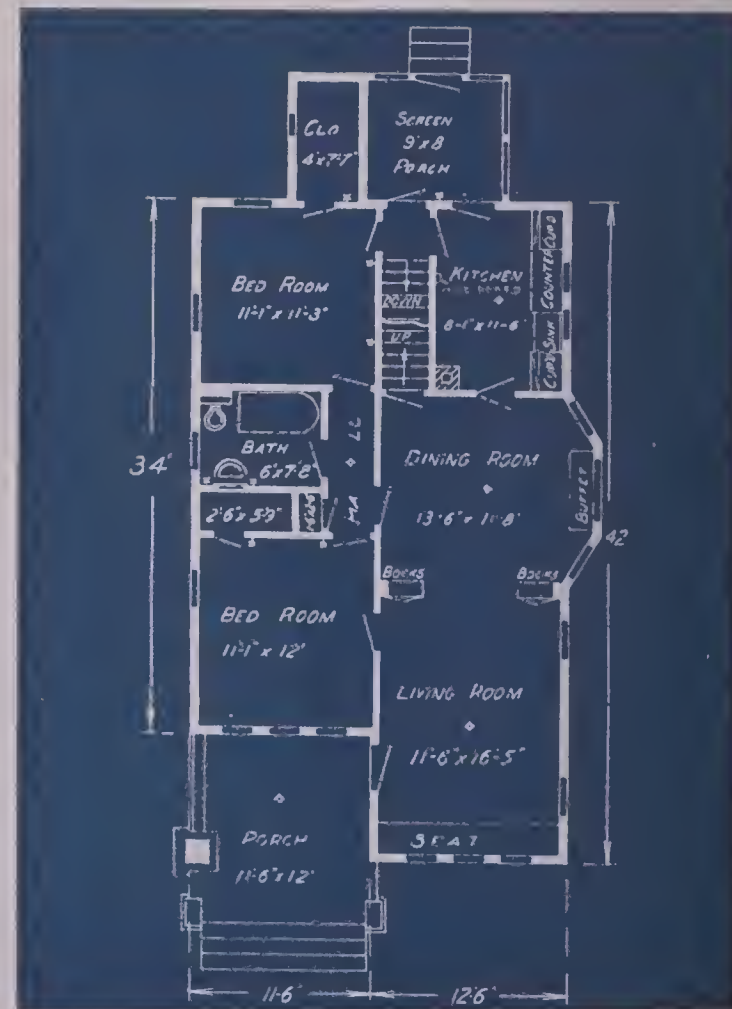

"Learn from the misfortunes of others"
who tried to build without our detailed plans.

EXTERIOR NO. 223

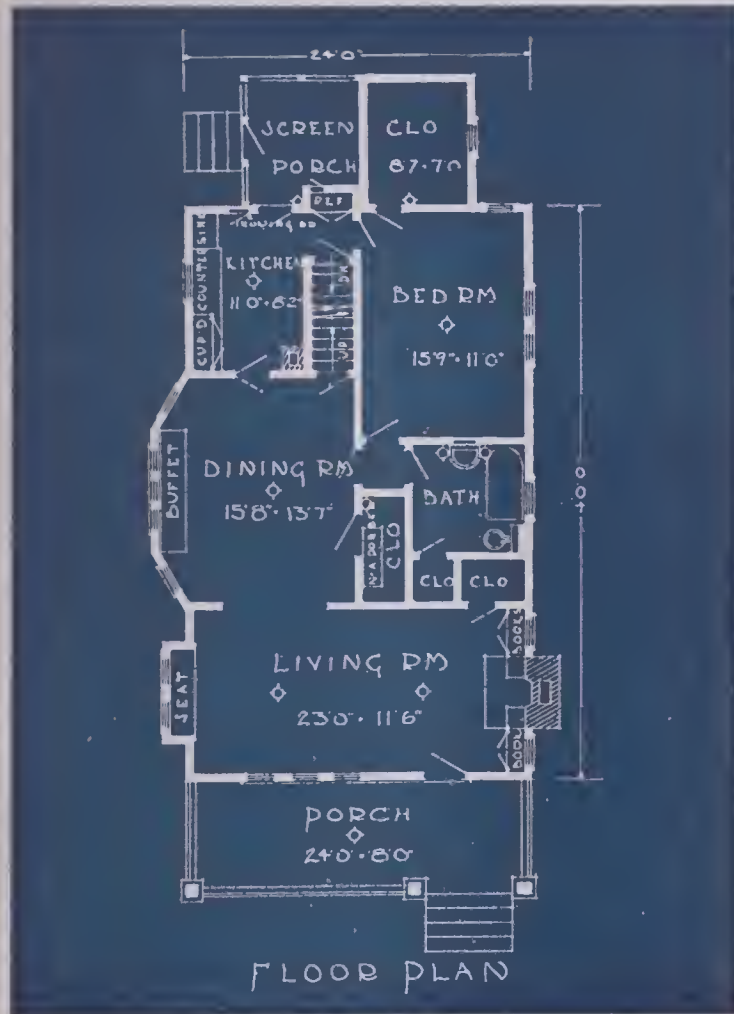

No. 223. Simplicity and attractiveness make this one of our most popular bungalows. The living and dining rooms are connected by a large book case opening which make them practically one room. An enclosed sleeping porch is built over the kitchen porch and closet. In case only one bed is required, the front room may be used as a den by leaving a large opening between it and the living room.

Complete plans as shown or reversed and specificatoins, \$10.

FLOOR PLAN NO. 223

Our detailed plans show you
exactly how to build them.

FLOOR PLAN NO. 227

EXTERIOR NO. 227

No. 227. A cozy little home of 4 rooms and bath, with an enclosed sleeping porch over the screen porch and closet and an in-a-dor bed in the dining room closet.

Complete plans as shown or reversed and specifications, \$10.

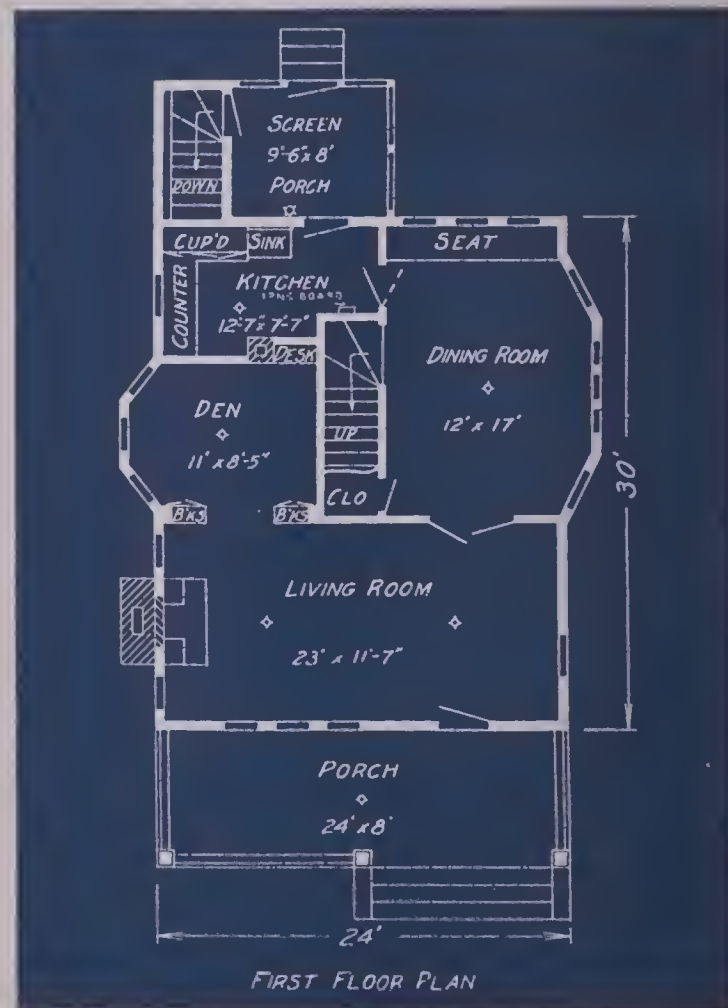

Every man is the architect of his own destiny,
but he should not build without our detailed plans.

EXTERIOR NO. 228

No. 228. A well arranged shingled home of eight rooms with practically all of the characteristics of a typical bungalow, yet by having dormers and a fairly steep roof, we are enabled to give two bed rooms, sun room, bath room and sewing room on the second floor. This is a house in every way desirable.

Complete plans as shown or reversed and specifications, \$12.50.

FLOOR PLAN NO. 228

Our detailed plans show you exactly how to build them.

FLOOR PLAN NO. 228

STAIRWAY NO. 228

There being no hall in this house, the stairs lead up from the dining room and the long seat, with the windows above overlooking the garden, make this room very cozy. This house is planned on the popular design of a long living room with fireplace in the end. The den, with bay window, book cases and writing desk, is conveniently located in connection with the living room.

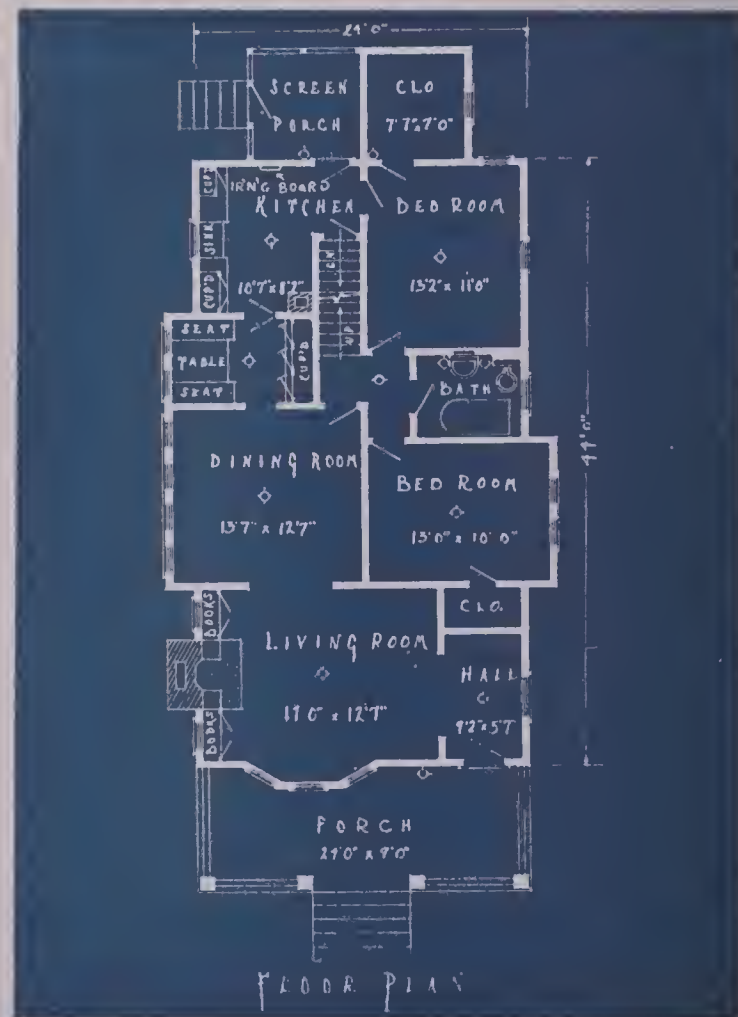

Any fool can spend money, a few can save it,
but he's no fool who spends it for our detailed plans.

EXTERIOR NO. 229

No. 229. A very attractive exterior and a beautiful interior with an excellent plan. A very convenient and homey bungalow with a fine sleeping porch over the screen porch and closet.

Complete plans as shown or reversed and specifications \$10.

FLOOR PLAN NO. 229

Our detailed plans show you exactly how to build them.

FLOOR PLAN NO. 230

EXTERIOR NO. 230

No. 230. It would be difficult to plan a more artistic or homey bungalow than this. The foundation, piers and flue are built of cobble stone paving blocks. The low ornamental composition roof is very attractive. The long combination living room and the breakfast room with built-in table, seats and cupboard were designed for comfort and convenience.

Complete plans as shown or reversed and specifications \$7.50.

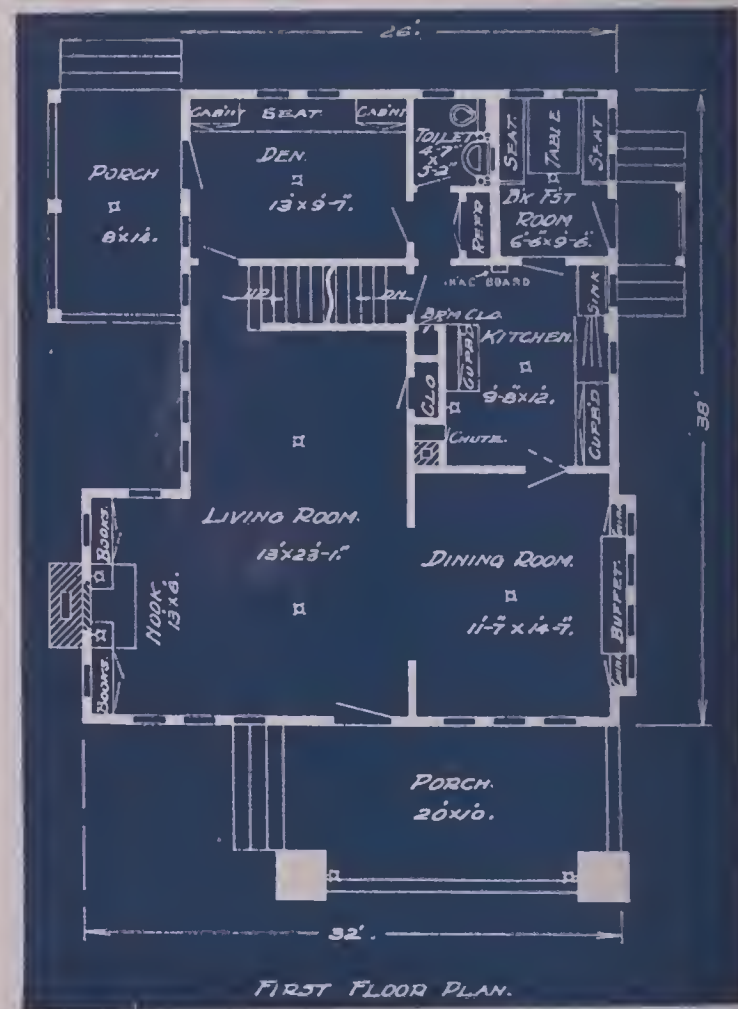

You will not realize your ideal
without our detailed plans.

EXTERIOR NO. 231

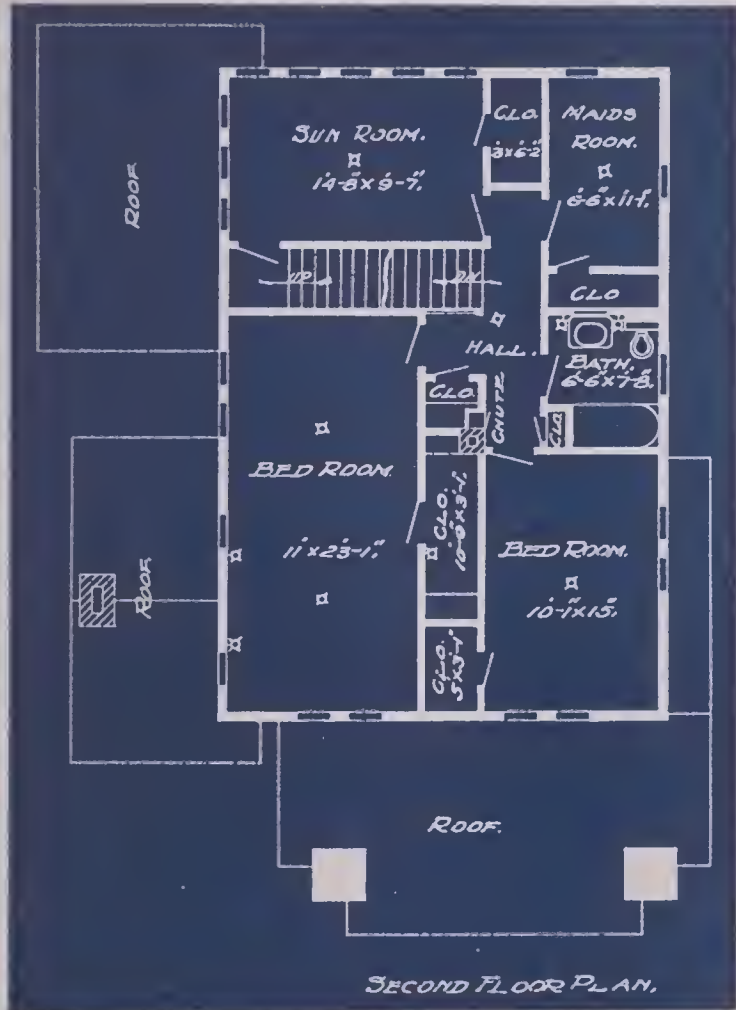

No. 231. This beautiful and unusual house is as complete as a home can be. The foundation is of hollow tile with the exposed outside walls, porch piers and flues, stuccoed. It is sided with ten inch lap siding and roofed with composition roofing. The windows are many and well grouped. The sleeping porch is enclosed with three sash windows, making it possible to open them two-thirds instead of only half. The plan of the second floor and view of the living room is shown on page 23.

Complete plans as shown or reversed and specifications \$15.

FLOOR PLAN NO. 231

Our detailed plans show you exactly how to build them.

FLOOR PLAN NO. 231

LIVING ROOM NO. 231

Living room nook of the house shown on page 22. This room is large and airy. The dining room adjoining, with a large opening, presents a pleasing appearance. The room to the rear of the living room is especially convenient and can be used for a nursery, office or den. The side porch adds greatly to its usefulness.

"Money talks" if it is used
to buy our detailed plans.

EXTERIOR NO. 232

No. 232. A stucco bungalow worthy of notice, much larger than it looks to be in the picture, having two fine rooms upstairs. The breakfast room is a great asset to the home.

Complete plans as shown or reversed and specifications, \$10.

FLOOR PLAN NO. 232

Our detailed plans show you exactly how to build them.

FLOOR PLAN NO. 233

EXTERIOR NO. 233

No. 233. This is quite an unusual design of convenient arrangement. The two bed rooms being in the rear, make it possible to have windows in two sides of each room excepting the kitchen. The living room, dining room and kitchen are closely connected. The sleeping porch is on the first floor. This arrangement is especially desirable for the housewife who is unable to climb stairs.

Complete plans as shown or reversed and specifications \$7.50.

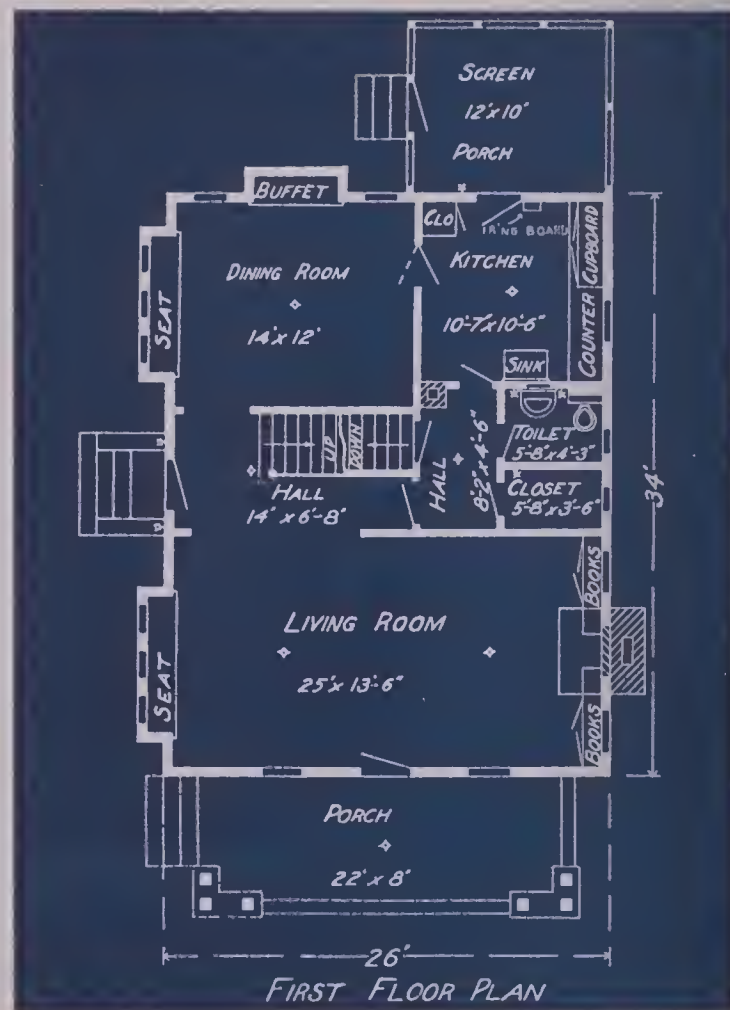

"Fools rush in where Angels fear to tread" when they try to build without our detailed plans.

EXTERIOR NO. 237

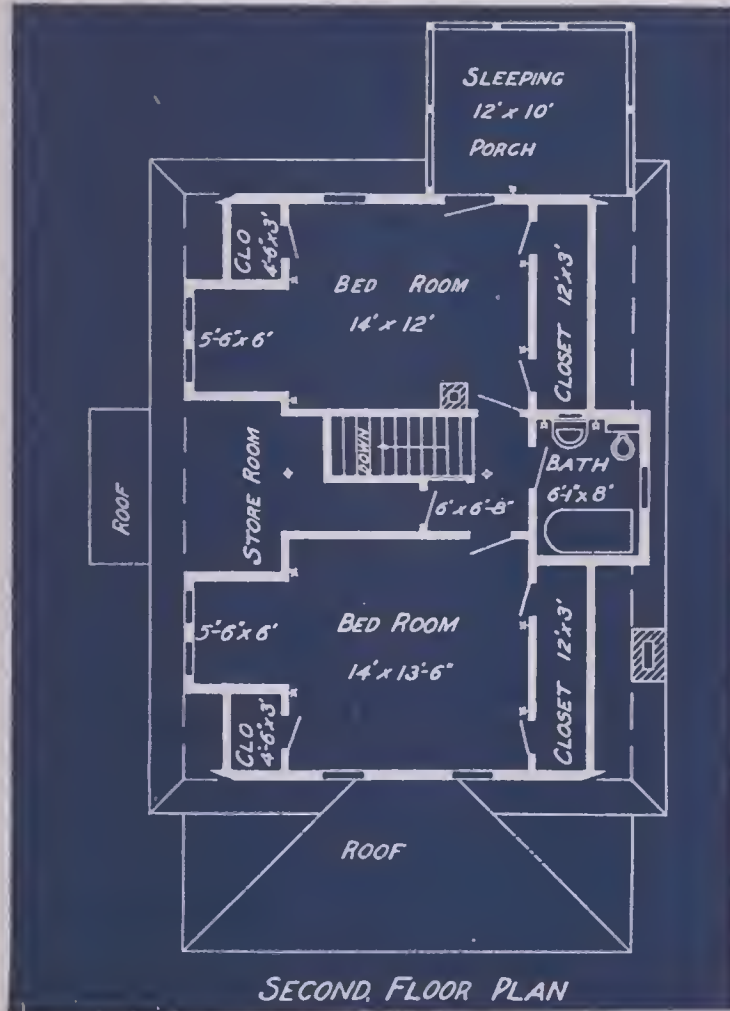

No. 237. A charming colonial home which has received a great deal of well deserved praise. It is sided with 10-inch siding and has native stone foundation. The staircase hall, with the dining-room on one side and the unusually large living room on the other, the long window seats and built-in features are all very attractive. The second floor is planned for two large bed rooms, bath room, and sleeping porch over the kitchen porch. On page 27 is shown the second floor plan and view of dining room.

Complete plans as shown or reversed and specifications, \$10.

FLOOR PLAN NO. 237

Our detailed plans show you exactly how to build them.

FLOOR PLAN NO. 237

INTERIOR NO. 231

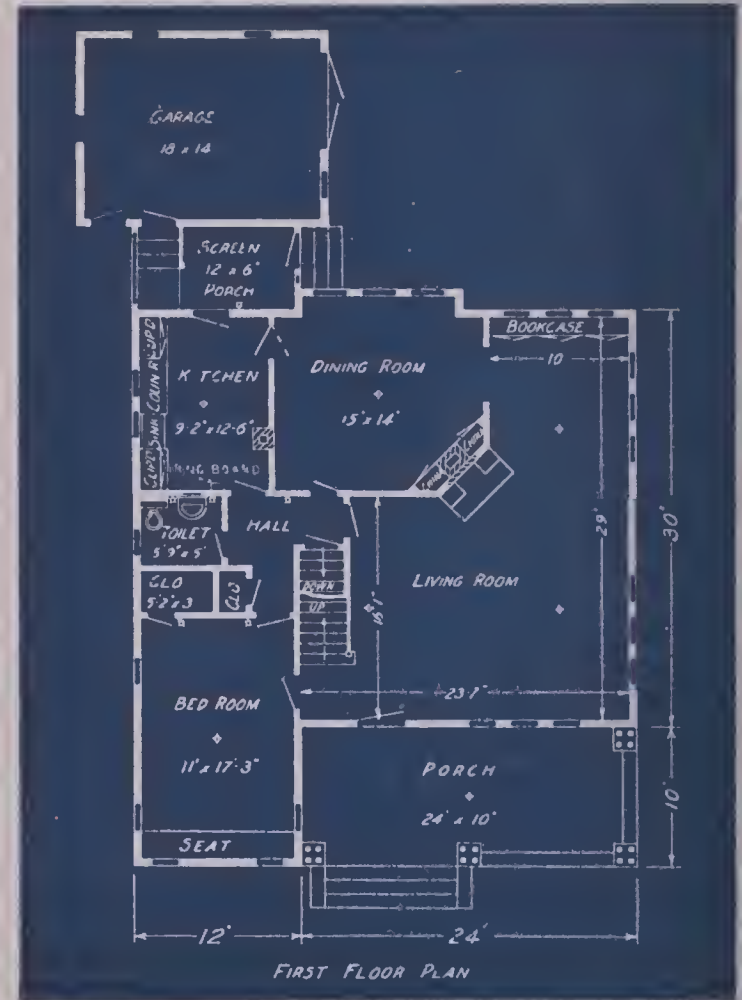

No. 231. This interior is a view of the dining room of Plan No. 231 shown on page 22. It is the latest type of combination china cabinet and buffet, and as it is built in a recess it takes but very little space from the room. The buffet is built solid with no mirrors or glass doors. Windows fill the entire space in this recess not occupied by the cabinet and buffet. The outside effect is very attractive.

Prevention is better than cure;
buy our detailed plans.

EXTERIOR NO. 238

No. 238. This is one of the handsomest bungalows and is particularly adapted to a corner location. The big porch has a concrete floor. The foundation is of native stone. The garage, attached to the rear of the house, is convenient. A rear view of this home is quite as attractive as the front. The exterior is of shingles stained a rich brown. The roof is stained green and the trim is painted white—the whole effect being decidedly attractive. On the following page is shown the plan of the second floor and a view of the living room.

FLOOR PLAN NO. 238

Our detailed plans show you
exactly how to build them.

FLOOR PLAN NO. 238

LIVING ROOM NO. 238

A more spacious and comfortable living room in a bungalow than No. 238 can scarcely be imagined. The many windows insure plenty of light and ventilation. The mantel, the long bookcase and the odd shape of the room make it ideal. The dining room is quite secluded and the arrangements of all other rooms and conveniences are the result of much careful study.

Complete plans as shown or reversed and specifications \$15.

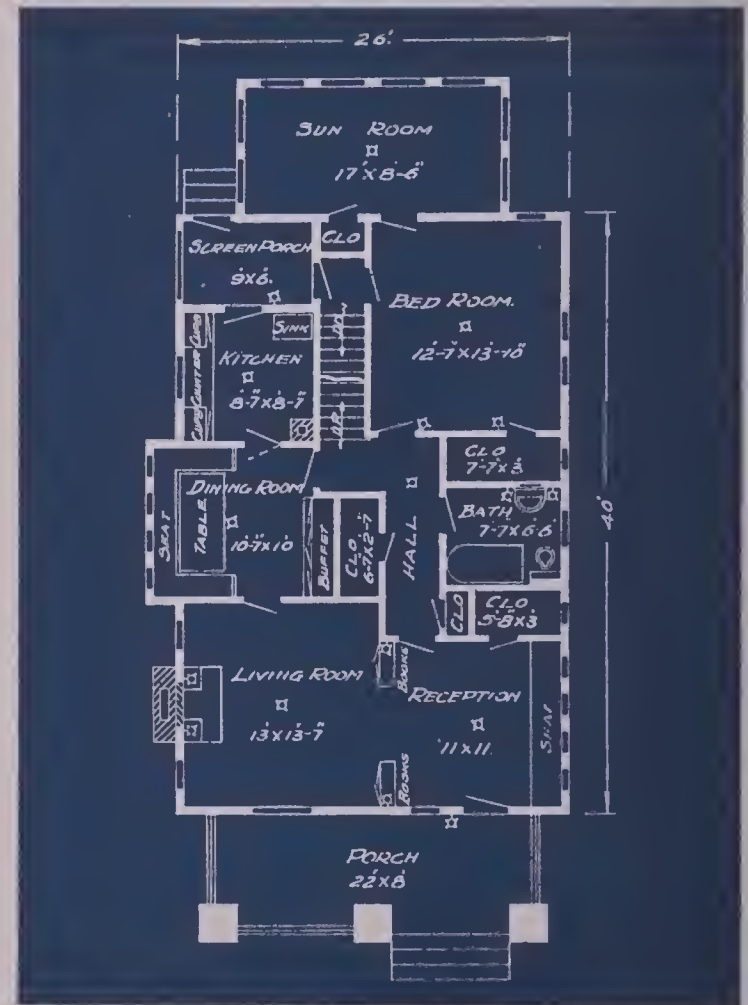

Avoid wasting valuable time and materials; use our detailed plans.

EXTERIOR NO. 305

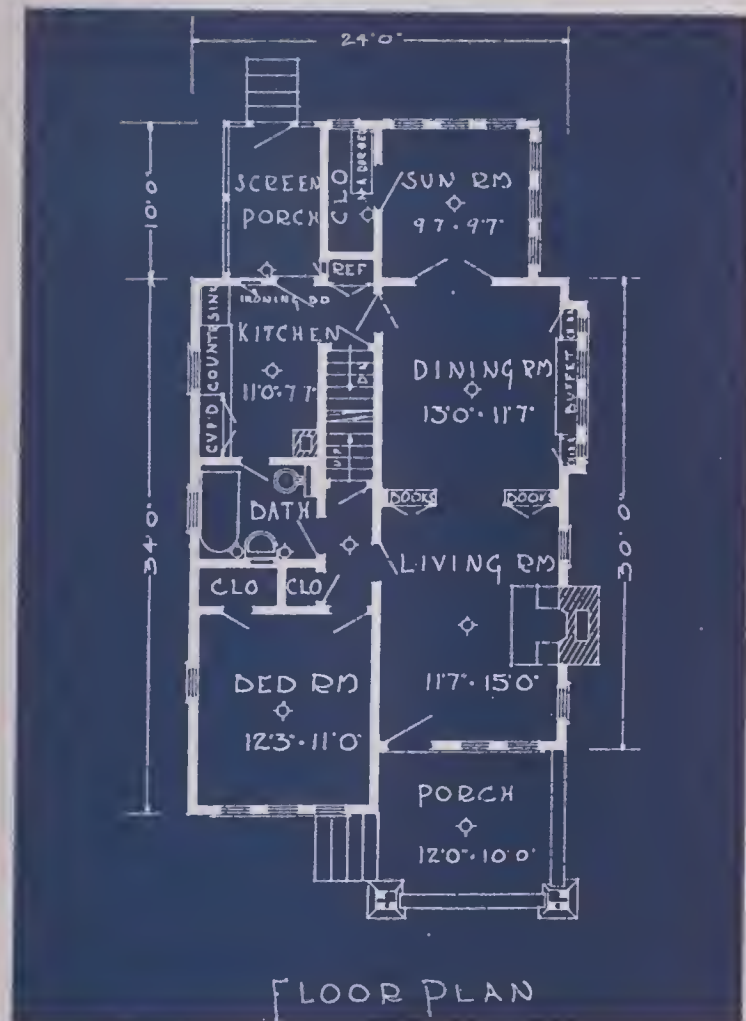

No. 305. The completeness of this popular bungalow is seldom equaled. The reception room, with built-in seat; the living room, with fireplace and book-cases; the dining room, with built-in tables, seats and buffet; the unusually fine closets, sun room on the first floor, and the sleeping porch on the second floor, all go to make this a very desirable home.

Complete plans as shown or reversed and specifications \$10.

FLOOR PLAN NO. 305

Our detailed plans show you
exactly how to build them.

FLOOR PLAN NO. 306

EXTERIOR NO. 306

No. 306. This nobby little bungalow is quite complete with many built-in features. In this plan we have a sun room by day and a bed room by night having an in-a-dor bed in the closet.

Complete plans as shown or reversed and specifications \$7.50.

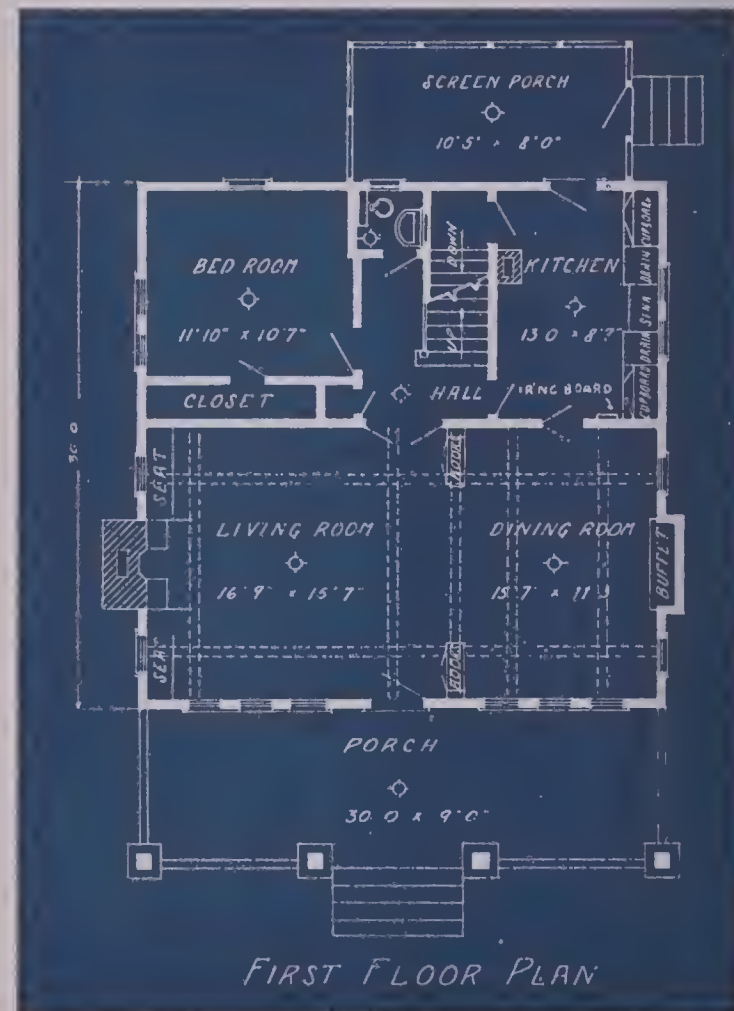

It is always too hot or too cold unless your house has been built according to our detailed plans.

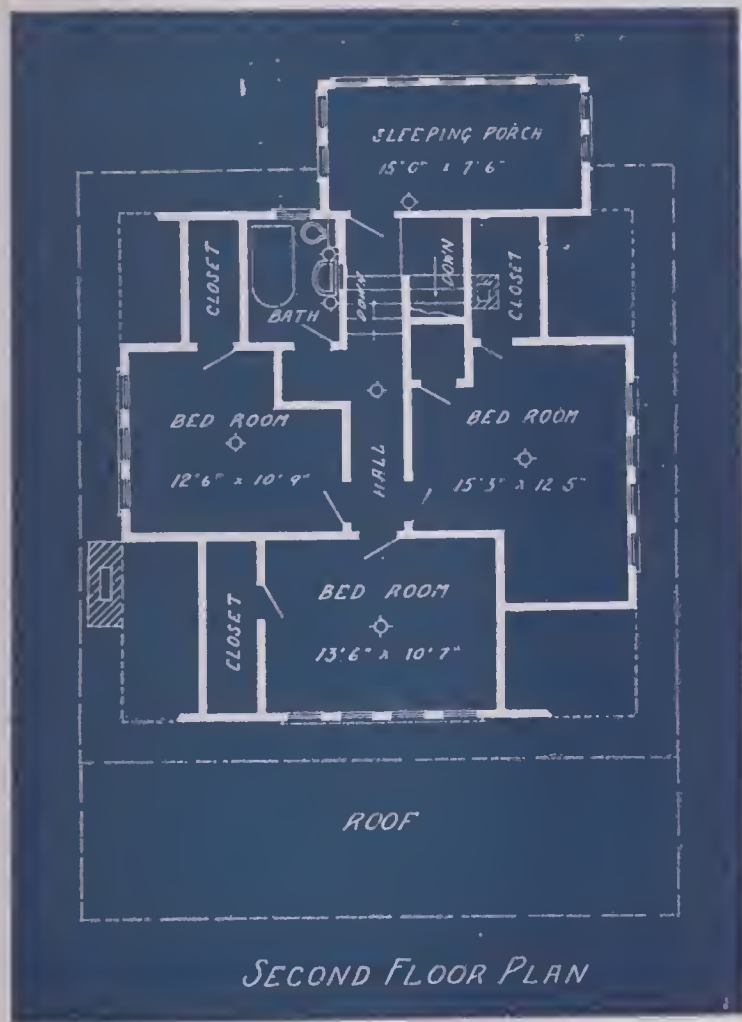

EXTERIOR NO. 308

No. 308. One of our very roomy houses, particularly well adapted to a large family as it has 4 bed rooms besides the enclosed sleeping porch.

Complete plans as shown or reversed and specifications \$12.50.

FLOOR PLAN NO. 308

FLOOR PLAN NO. 308

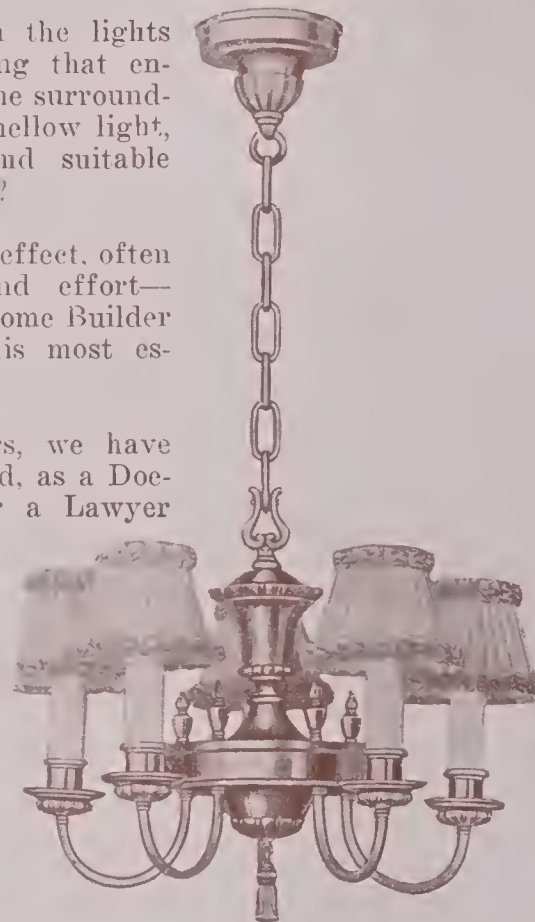

Our detailed plans show you exactly how to build them.

In the evening, when the lights are lit, is there anything that enhances the beauty of home surroundings more than a soft, mellow light, diffused by Artistic and suitable Lamps and Chandeliers?

To obtain this desired effect, often requires much time and effort—more than the average Home Builder can devote, even to this most essential item.

For thirty-seven years, we have made this our study; and, as a Doctor knows medicine, or a Lawyer knows law, so we know the art of Proper Lighting.

We are prepared to submit suggestions that will meet your lighting requirements, upon request, without charge or obligation.

A sepia-toned photograph of a large, two-story wooden house. The house features a wide, wrap-around porch with a decorative railing. The foundation is made of stone blocks. The house has a gabled roof with a chimney visible on the left side. The overall style is characteristic of early 20th-century architecture.

No. 1805. A nobby and attractive bungalow which has proven its popularity with us. The in-a-dor bed just off of the den makes this room very desirable either as a den or a bed room.

This is a detailed floor plan for a single-story house. The overall dimensions are 36'0" wide by 28'0" deep. The layout includes a front porch leading into a large living room (17'0" x 15'7") with a fireplace and a bookcase. A central hall connects the living room to a dining room (14'2" x 11'0"), a kitchen (15'7" x 7'7"), a bathroom, and two bedrooms (12'0" x 10'5" and 14'0" x 11'0"). The kitchen features a sink, stove, and counter, and is adjacent to a back porch with stairs leading up. A closet is located near the back porch, and another closet is near the front porch. The plan also shows a central staircase and various built-in features like a buffet and bookcases.

COMPLETE PLANS

A set of our plans consists of blue prints of four elevations, basement and floor plans, all drawn to the scale of one-fourth inch to the foot, with details of cabinets, buffets, seats, mantels, book-cases, etc. A sectional drawing and a roof plan, where any intricacy of construction seems to demand it, are supplied. Duplicate sets of plans will be furnished at half the regular price if ordered within thirty days of first order. In case changes are desired in any plans we will make them at a nominal cost.

Our specifications are as complete as it is possible to make them and they cover every step from the excavation to completion of the building. Any practical builder can follow them without difficulty, but if any question arises we will consider it a privilege to answer any inquiry, as it is our desire to have all of our customers satisfied. Our success in home building has been achieved by this system of co-operation.
